

The Standard for Evaluating and Choosing a Consultant

Equilar's online products offer unparalleled speed, accuracy, and value for those charged with setting compensation for key corporate leaders.

"I find my Equilar subscription to be an indispensable aid in analyzing large quantities of executive pay data. Of equal significance is Equilar's total commitment to product quality. The probability of error is so small that it would have to be written in scientific notation."

"After our tutorial session, I created, downloaded and printed a fully-formatted 3-year ExecutiveInsight report for our CEO with an expanded subset of our peers; complete with color charts and graphs, no less. In prior years, we have had to work hundreds of hours sifting through proxies and manually compiling Excel databases in preparation for our annual Board of Directors Compensation Committee meeting. Of course, our CEO was blown away when I told him that I had done it in less than 5 minutes!!!"
